MD REZWANUL HAQUE

Software Engineer | Backend & .NET Developer | AI Empowered

Dhaka, Bangladesh • +8801750425444 • rezwan.aiub10@gmail.com
linkedin.com/in/rezwanul-reza-a70381120

PROFESSIONAL SUMMARY

AI-empowered Software Engineer with 8+ years of experience designing, developing, modernizing, and supporting Business-critical software solutions. Strong expertise in C#, ASP.NET Core/.NET, RESTful Web APIs, SQL Server, Oracle, Angular, micro services, clean architecture, real-time systems, cloud services, and database optimization. Experienced across pharmaceutical, education, ERP, parliament, real estate, and security/automation domains, with a proven focus on scalable backend engineering, system modernization, performance, reliability, and maintainable architecture.

CORE TECHNICAL SKILLS

Backend & .NET	C#, .NET, ASP.NET Core, ASP.NET MVC, Web API, ADO.NET, Entity Framework Core, LINQ
Architecture	Micro services, Clean Architecture, OOP, RESTful APIs, SOAP/Web Services, Service Integration
Frontend	Angular 14, AngularJS, JavaScript, jQuery, Razor, HTML, Bootstrap, Kendo UI
Databases	Microsoft SQL Server, Oracle, MongoDB, Database Design, Query Optimization, Stored Procedures
Cloud & DevOps	Microsoft Azure, Azure Functions, Cloud Storage, Git, SVN, Docker, AWS, CI/CD
Real-Time & Services	SignalR, Worker Services, Background Processing, Real-Time Communication
AI & Engineering	AI-Assisted Development, Spec-Driven Development, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

Square Informatix Limited

2021 – Present

Analyst Programmer

Dhaka, Bangladesh

- Led development and maintenance of a high-impact Square Pharmaceuticals application handling approximately BDT 300 crore in annual transaction volume.
- Supported a system serving approximately 3,000 concurrent users, ensuring reliable operations and timely doctor commission disbursement.
- Modernized the Sales Process Automation System by migrating it from an Oracle desktop application to a .NET Core web application.
- Collaborated with business analysts, software architects, and UX/UI designers throughout solution design and implementation.
- Developed and supported applications for Square Pharmaceuticals and other Square Group sister concerns.

Best Brain Inc.

2024 – 2026

Senior Software Engineer

Hyderabad Telangana, India | Remote

- Designed and developed backend APIs for BB Support, an online session platform enabling real-time interaction between students and teachers.
- Re-engineered and modernized the existing Best Brain Portal from a traditional architecture toward a scalable micro services-based architecture.
- Developed and maintained RESTful APIs and backend services with strong emphasis on scalability, maintainability, performance, clean architecture, and reliability.
- Leveraged AI-assisted software development and Spec-Driven Development to accelerate implementation, improve code quality, and streamline engineering workflows.
- Worked extensively with Microsoft Azure services, including Azure Functions and cloud-based storage services, to build and support scalable backend solutions.
- Collaborated across platform components to integrate services, improve reliability, and modernize existing business processes.
- Contributed to architectural decisions, API development, service integration, debugging, and continuous platform improvement.
- Worked in a fully remote engineering environment, independently managing development tasks while collaborating through modern development workflows and tools.

Piistech Limited 2020 – 2021

Software Engineer *Dhaka, Bangladesh*

- Developed ERP systems for American clients using ASP.NET MVC, Razor, Microsoft SQL Server, jQuery, and clean architecture principles.
- Integrated third-party APIs, including payment gateways, into enterprise ERP solutions.
- Handled database design, query optimization, complex SQL queries, and stored procedures.
- Worked directly with international clients to gather requirements and support software delivery.

SELECTED PROJECTS

Best Brain Portal | Best Brain Inc. | Education

Built and supported the business-wide portal covering inventory, invoicing, shipment, order management, and related operational workflows. Contributed to the modernization of the portal into a scalable micro services-oriented platform.

Technology: ASP.NET Core/.NET, C#, REST APIs, Micro services, Azure, Azure Functions, Cloud Storage

BB Support | Best Brain Inc. | Real-Time Student Support

Developed backend APIs and services for an online session platform enabling real-time student-teacher interaction and support.

Technology: ASP.NET Core/.NET, REST APIs, SignalR, Azure

BB Slate | Best Brain Inc. | Student Education

Contributed to backend/platform capabilities for a student-focused educational application supporting online learning and student engagement.

Technology: .NET, REST APIs, Cloud Services

Doctor Investment System | Square Pharmaceuticals Ltd.

High-impact investment management platform handling approximately BDT 300 crore annual transaction volume and approximately 3,000 concurrent users, including doctor commission disbursement.

Technology: ASP.NET Core, SQL Server 2018, Angular 14

Private Member Regulation Management System | Bangladesh Parliament

Developed PMRS to manage MP resolutions from creation and approval through selection for balloting.

Technology: ASP.NET MVC, SQL Server 2018, AngularJS

Property Queen Malaysia | Malaysia

Map-based real estate portal connecting property owners, agents, developers, and prospective buyers/lessees.

Technology: ASP.NET MVC, SQL Server 2018, Bootstrap, jQuery

RMR Cloud | RAB Business Security, USA

Cloud-based business management platform for security and automation dealers with permission-based tools and reporting.

Technology: ASP.NET MVC, SQL Server 2018, Bootstrap, jQuery, Handlebars.js

EDUCATION

Jahangirnagar University — MSc in Computer Science **CGPA: 3.30/4.00**

American International University-Bangladesh — BSc in Computer Science **2018 – 2021 | CGPA: 3.46/4.00**
